What is a Phishing Email?

- ▶ Email sent by an attacker pretending to be someone you know.
- ▶ They are called "phishing" emails as a play on the word "fishing".

Spotting Phishing Emails

1. ALWAYS check "from" email address, NOT the visible name.
2. On computers hover over the "from" name, do NOT click it.
3. On phones / tablets tap then release the "from" name.
4. ACT on emails, DON'T react to them.
5. Emails are NOT a secure form of communication.
6. Anything serious will NOT be conducted over email.
7. Do NOT reply to the email - you are replying to the attacker.
8. DO pick up the phone & call the sender to verify authenticity.

Phishing Email Red Flags

1. Email has the wrong "from" email address.
2. Email has urgent tone - immediate attention needed.
3. Email content doesn't make sense like getting unexpected links or attachments.
4. Email content or tone just "feels" wrong.
